SASWAT DASH

Data and Product Analyst

Kolkata, India | +91 88954 06527 | dashsaswat09@gmail.com | linkedin.com/in/saswatdash2003 | github.com/saswat-projects-hub

SUMMARY

Analyst trained as an engineer at IIT Kharagpur who turns messy operational data into decisions. Analysed 50,000+ EV trip records at Vecmocon, lifted onboarding activation 18% with cohort and funnel analysis at InstaPrepsAI, and ranked 9th of 4,518 in the American Express Campus Challenge. Works in SQL, Python and Power BI; now a Procurement Officer at HPCL.

EXPERIENCE

Vecmocon Technologies | *Data Analyst & Strategy Intern* | EV intelligence — May 2024 – Jul 2024

- Analysed 50,000+ EV trip records in SQL to map demand, income and supply gaps for an NBFC leasing programme
- Improved rule-based route categorisation 27% using OpenStreetMap road tags, speed trends and stop density
- Correlated SONAR occupancy signals with BMS energy use to estimate passenger load and guide route allocation
- Contributed analysis to UN Green Climate Fund project reporting

InstaPrepsAI | *Product Management & Analyst Intern* | B2B and B2C EdTech — Jun 2025 – Sep 2025

- Lifted onboarding activation 18% through cohort and funnel analysis of 3,000+ users
- Analysed 5,000+ records in SQL to surface user pain points behind stalled growth
- Grew monthly active users 57% to 1.8k+ with a relaunch strategy built on behavioural analysis and A/B tests
- Designed KPI dashboards tracking churn, funnel conversion and engagement for leadership decisions

Hindustan Petroleum Corporation Limited (HPCL) | *Procurement Officer* | Kolkata — Aug 2026 – Present

- Own end-to-end procurement for regional operations, from department requirement to tender, purchase order and payment
- Run techno-commercial bid evaluations with engineering and finance teams and manage vendor performance

Nexorea | *Co-Founder & Product Head* | AI mental-wellness startup — May 2025 – Present

- Ran 48 user interviews and 7 design sprints over a 12-week pre-MVP to define an AI companion and diary
- Stress-tested a mobile-first architecture for 6,000+ DAUs; prototypes hit under 200 ms latency, 35% faster than baseline

Devlaunch | *Product Management Intern* | B2B SaaS — Apr 2025 – Jun 2025

- Cut bounce rate 12% by running 37 user interviews and turning the insights into PRDs that restructured navigation
- Grew DAU 5% with streaks and badges, and engagement 10% with community forums and event reminders

Habuild | *Product Management Intern* | B2C health-tech — Aug 2024 – Nov 2024

- Increased class attendance 19% in 3 months by launching the "Yoga Together" and "Pause My Subscription" features

PROJECTS

Vendor performance and profitability, analytics project — Jul 2025 – Aug 2025

- Analysed 10,000+ sales and inventory records: $2.71M of slow-moving stock and 65.7% reliance on top vendors
- Ran a regression on bulk purchasing that showed a 72% unit-cost reduction opportunity
- Isolated 198 high-margin brands to redirect marketing spend

AtliQ Hotels revenue optimisation, analytics project — Jun 2025 – Jul 2025

- Found a 46,134 room-night upside and a 22.2-point weekend-weekday occupancy gap across 25 properties
- Modelled pricing: a 15% discount lifted Standard occupancy 7.3 points while a 15% premium protected Presidential margins
- Delivered 8 artifacts, including a phased roadmap to 65% occupancy

Banking dashboard, Power BI — Sep 2024 – Oct 2024

- Built a Power BI dashboard over 188 clients tracking $139.9M loans, $111.5M deposits and $5.17M fees against goals
- Combined 6 CSV sources and broke results down by income band and nationality; loans peaked mid-income

American Express Campus Challenge, Decision Science track — Jun 2024 – Jul 2024

- Ranked 9th of 4,518 predicting T20 winners with XGBoost and CatBoost; SMOTE and tuning lifted accuracy 26%

Credit card fraud detection, machine learning — 2024

- Built a Random Forest classifier on a heavily imbalanced dataset with random under-sampling, reaching an 86.1% F1 score

EDUCATION

Indian Institute of Technology Kharagpur — 2021 – 2026

B.Tech (Hons.) Mechanical Engineering and M.Tech Manufacturing Science & Engineering, 5-year Dual Degree
CGPA 7.11/10 | Class XII, CHSE Odisha: 79.83% (2020) | Class X, BSE Odisha: 85.5% (2018)

SKILLS

Analytics: SQL, Python (Pandas, NumPy, SciPy, scikit-learn), Power BI, Tableau, Excel

Statistics and ML: Hypothesis testing, regression, correlation, sampling design, confidence intervals, XGBoost, CatBoost, Random Forest, SMOTE

Product: User research, PRDs, roadmapping, prioritisation (RICE, MoSCoW), A/B testing, funnel and cohort analysis, product metrics (AARRR, HEART), Jobs to be Done, Scrum, Kanban, OKRs

ACHIEVEMENTS AND LEADERSHIP

- Top Fellow, NextLeap PM Fellowship (2024)
- Campus winner, Tata Elxsi TELIPORT, a national competition of 7,000+ teams (2023)
- Qualified GATE 2024 (Mechanical Engineering)
- Governor, Public Policy & Governance Society, IIT Kharagpur: led 86 members; reached 10,000+ people in 15+ cities
